Post-Conference On-Demand Viewing Availability Cancelled

An ongoing priority of the BC Water & Waste Association (BCWWA) is to provide our members with valuable services and programs that are accessible to all by removing possible barriers of geography and cost. In keeping with this philosophy, the BCWWA worked with the Environmental Operators Certification Program (EOCP) to provide members with continuing education experiences at the Annual Conference & Trade Show to ensure that operators and industry professionals can collect Continuing Education Units (CEUs) by attending eligible recorded education sessions via BCWWA's on-demand virtual conference platform.

Despite the previous success of this initiative, we regret to inform delegates and the operator community that **the EOCP has made the decision not to award CEUs to those who attend on-demand recorded education sessions** during or after the conference. Although in-person CEU eligibility remains for those who attend the conference, post-conference viewing and CEU eligibility of recorded education sessions for those who cannot participate in the in-person event will not be offered by the BCWWA this year.

The BCWWA has spoken with the EOCP to understand their rationale for retracting this eligibility and reach a compromise that benefits end users. We have been unable to do so, rendering the on-demand service offering no longer feasible.
